

Setting up Process and Folder Exclusions under Windows Defender AV and Threat Protection

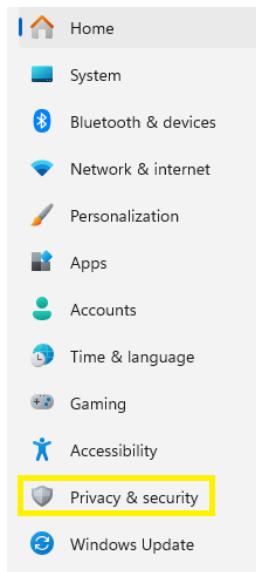

Right click on the Start button

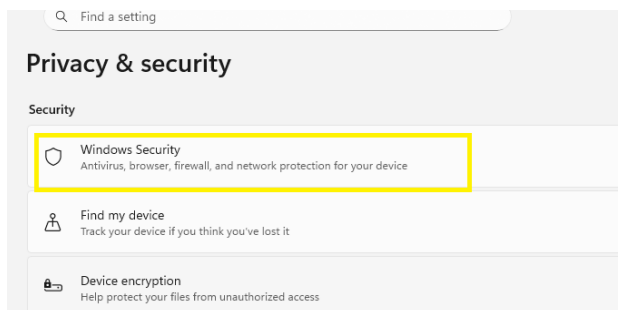

Select 'Settings'

Select 'Privacy and Security'

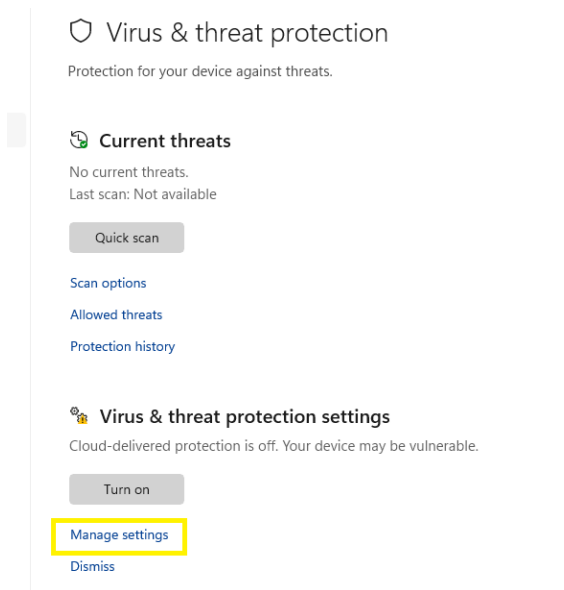

Select 'Windows Security'

Select 'Virus and Threat Protection'

Under 'Virus and Threat Protection' select 'Manage Settings'

Disable or turn off all 'On' switches for each section as you scroll down to the 'Exclusions' section and click on 'Add or remove exclusions.'

Tamper Protection

Prevents others from tampering with important security features.

 Tamper protection is off. Your device may be vulnerable. [Dismiss](#)

☐ Off

[Learn more](#)

Controlled folder access requires turning on Real-time protection.

Controlled folder access

Protect files, folders, and memory areas on your device from unauthorized changes by unfriendly applications.

[Manage Controlled folder access](#)

Exclusions

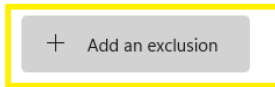

Microsoft Defender Antivirus won't scan items that have been excluded. Excluded items could contain threats that make your device vulnerable.

[Add or remove exclusions](#)

Click on 'Add and exclusion'

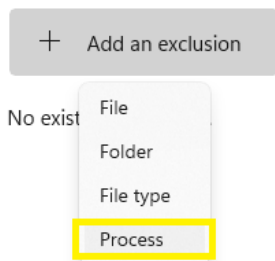

Exclusions

Add or remove items that you want to exclude from Microsoft Defender Antivirus scans.

No existing exclusions.

Select 'Process'

In the available Process field, enter in the .exe files one at a time that are specific to the workstation and/or iMedia applications you have installed.

A screenshot of the 'Add an exclusion' dialog box. It has a title bar 'Add an exclusion'. Below it is a text input field labeled 'Enter process name' with a cursor. Below the field is a blue link 'Learn more'. At the bottom are two buttons: 'Add' and 'Cancel'.

For the OnAir workstation with OnAir installed (with OnAir Record Edit, Automerge enabled, etc.)

Add:

- onair.exe
- PTA.exe
- automerge.exe
- dbapp.exe
- mtp.exe
- mysql.exe
- SetupSQL.exe

Add a folder exclusion for the following:

- C:\OnAir
- C:\OMT Tools
- O:\

For a standard workstation that has any of the following applications installed, add the following Process exclusions:

- Log Tools add MLT.exe
- Production add MTP.exe
- Voice Tracking add MVT.exe
- iMediaImport add iMediaImport.exe

For a workstation or server that has Logger installed:

Add the following Process Exclusions:

- Logger.exe
- Setwiz.exe
- mysql.exe

Add the following folder Exclusions:

- C:\Program Files (x86)\iMediaLoggerV6
- C:\OMT_Tools
- O:\ (if using an iMedia DB for DB recordings)

For a Central Audio Server, add the following Process exclusions:

- mysql.exe
- SetupSQL.exe
- dbapp.exe

If the following applications are installed on the server:

- iMediaTransfer add iMediaTransfer.exe
- Voice Tracking Portal add VTP.exe and ADC.exe
- iMediaImport add iMediaImport.exe

For a Central Audio Server, add the following folder Exclusions:

- C:\OMT Tools or C:\OMT_Tools (depending on version)
- O:\

For a Remote Voice Tracking workstation or laptop, add the following Process exclusions:

rmvt.exe

mysql.exe

SetupSQL.exe

For a Remote Voice Tracking workstation, add the following folder exclusions:

C:\OMT Tools
